

mission ready

Our sea and air men and women have the skill and the guts to complete their mission. But will they have the equipment?

They will with the help of Honeywell. Our defense logistics partnership programs use proven technologies to solve the emerging challenges of global logistics and support. With over sixty years of military system technologies and service, Honeywell is delivering service, reliability, and survivability enhancements to extend the useful lives of C-130, C-5, B1 and B2, the MQ9 Reaper, F-15, F-22, and F-35 aircraft.

With continuous process improvements from Six Sigma LEAN, condition-based maintenance for equipment and vehicles, standardization, asset visibility & tracking, and the right people in the right jobs – Honeywell helps you stay mission ready for the changing battlespace.
