TIGER

(Total InteGrated Engine Revitalization)

- TIGER is a billion dollar program with strategic importance to the US Army that will upgrade the engine (AGT1500) in the Abrams Main Battle Tank
- Becoming a Honeywell TIGER supplier may also qualify you on numerous other programs in Honeywell Aerospace

Honeywell Aerospace is teaming with the US Army to provide integrated performance based logistics services to extend the life of the AGT1500 turbine engine.

The TIGER Program supports the Abrams battle-proven engine to perform better, require fewer repairs and operate at lower cost. To do this, Honeywell is seeking certified small businesses in HUBZones, Small Disadvantage Businesses, Women Owned Small Businesses, Veteran-Owned Small Businesses, and Service-Disabled Small business suppliers ready to become an integral part of the Honeywell supply chain.

Honeywell Aerospace Supplier Qualifications

- Electronic Data Interchange Capable
- High Performance in Quality, Delivery, Price
- Compliant to AS9100 or AS9003

Target Industry Groups

- General and Complex Machining
- Electro-Mechanical
- Sheet Metal Fabrication
- Services – (Information Technology, Supply Chain, Logistics, Engineering, Packaging)

Mentor-Protégé Program

Honeywell is interested in identifying suppliers within target industry groups and developing a long term relationship beginning with the TIGER program. If your company meets the qualifications for the Mentor-Protégé program, please contact the TIGER Program Transition Manager at 602-231-2560.

Honeywell is built upon a long history of strengths:

- Technological innovation
- Leadership
- Outstanding people
- Delivering on our commitments

At Honeywell, expanding supplier diversity is part of our business strategy.
