

mission ready

Honeywell Defense Logistics partnerships improve readiness. The DLA-Honeywell Strategic Supplier Alliance (SSA) is one of the most comprehensive and industry-leading contracts in place today, covering over 10,000 aerospace items around the world, around the clock.

In other partnerships, Honeywell is delivering reliability, and survivability enhancements to extend the useful lives of C-130, C-5, B1 and B2, the MQ9 Reaper, F-15, F-22, and F-35 aircraft as well as the MH-47, UH-60, and AH-64 helicopters, and the M1 Abrams tank. For 20 years, Honeywell and the U.S. Marine Corps have supported the Expeditionary Forces to pre-position mission-ready assets.

Across Defense, in the depot and in-theater, Honeywell is partnering for mission success.
