

Expeditionary Logistics

Honeywell International (NYSE: HON) is continually growing its global defense business to more effectively address Department of Defense equipment repair and Reset challenges in the Middle East and around the world.

We recently expanded already-significant capabilities in equipment pre-positioning, depot maintenance, repair and overhaul and up-arming with our acquisition of Dimensions International.

Honeywell supports requirements for humanitarian and war assets in Southwest Asia. We built a facility in Kuwait; providing the largest support capacity in southwestern Asia.

Honeywell's presence in 90 countries provides an operational base advantage for its customers and currently supports U.S. Army, Air Force, Navy, Marine Corps, Coast Guard and government agency programs through strategic supplier alliances and performance-based contracts.

The Honeywell management team and work force are very experienced in pre-positioning logistics support; having served as the prime contractor for the U.S. Marine Corps's support for of the Maritime Prepositioning Ships (MPS) and Norway GeoPrepositioning Programs.
