

## Partnerships & Depot Services

---

Partnering with Honeywell provides an innovative path for extending service life and increasing availability for mission critical components. Honeywell is a defense industry leader with many successful partnerships across defense service branches, platforms, and depots.

In partnership with a depot, Honeywell integrates and standardizes processes, deploys advanced repair technologies, and defines success in agreed-to outcomes.

Honeywell Partnerships programs deploy a Logistics and Services Support model which extends service life of mission critical assets as it reduces costs and produces supply chain savings through on-time, direct-to-destination deliveries.

Honeywell's Logistics and Services Support Model:

- 1-OEM –quality parts
- 2-Six Sigma Lean processes
- 3-Predictive maintenance technologies
- 4-Standardization for supply chain efficiencies
- 5-Personnel commitment to shared common, goals

Honeywell Depot Services:

- 1-Maintenance & Materiel Management
- 2-Improvements and Modernizations
- 3- Requirements and Verification Testing
- 4-Demand Planning and Data Management
- 5-Asset Processing and Repair
