

# Honeywell SMARTlab™ Simulation and Modeling Facility

SIMULATION AND MODELING FOR ACQUISITION,  
REQUIREMENTS AND TRAINING FACILITY

**Collaborative synthetic environments  
for systems integration**

**Honeywell**

# Simulation and Modeling for Acquisition, Requirements and Training Facility

PROVIDING COMPLEMENTARY SERVICES TO FUTURE COMBAT SYSTEMS INTEGRATION LABS AND COMMAND, CONTROL, COMPUTERS, COMMUNICATION & INTELLIGENCE (C4I) LABS

## Value to Customers

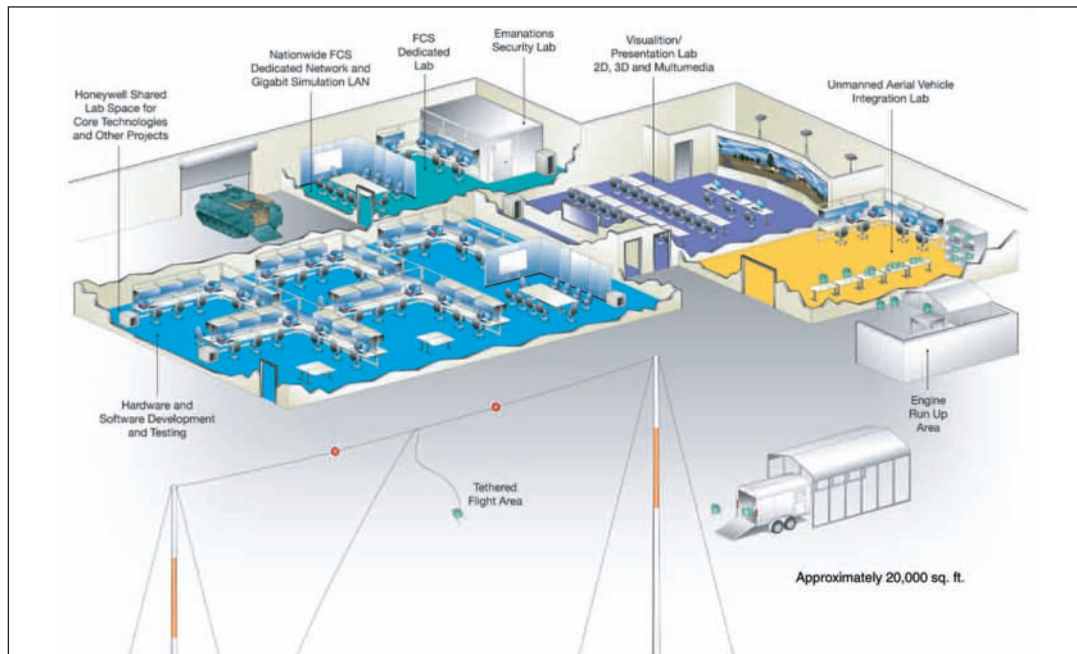

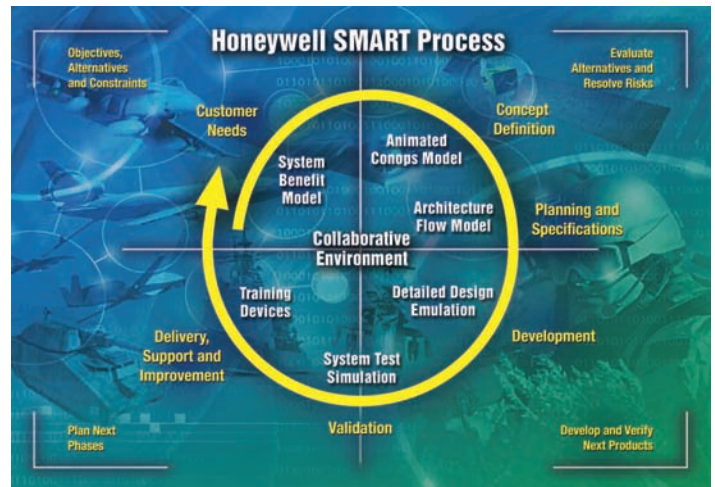

The Honeywell SMARTlab™ Simulation and Modeling Facility provides you with the benefits of Modeling & Simulation (M&S) for your product life cycle.

## Features

- 20,000 sq. ft. integration and visualization facility
- Expertise in tailoring the Honeywell SMART Process
- Environments for Network Centric Operations
- Engineering, facilities, and simulation tools
- Integration of tactical hardware and software with virtual world scenarios using C4I messages
- M&S for engineering and product development

## SMARTlab™ has proven the following benefits

- Reduction of schedule and improved product performance.
- Enhanced customer validation through simulations that provide constant project visibility

The Honeywell SMARTlab™ Simulation and Modeling Facility is located in Albuquerque, New Mexico.
